ONE MORE LIVING MINER ENTOMBED FOR 25 DAYS TAKEN FROM FRENCH MINE

Rescue is More Miraculous Than Finding of 13 Other Unfortunates Last Friday

Disaster Occurred March 10 When Hundreds Perished--
Those Who Escaped Kept Alive Over Three Weeks
on Food of Their Comrades Grain and Flesh
of Dead Comrades.

Lens, France, April 4.—One additional survivor of the recent mine disaster in which 1200 men lost their lives was taken from the wrecked Sallua mine, next to the Courriers mine, this morning. Berthou is the name of the rescued miner, and he had been underground 25 days when found today. The man was in a pitiable condition, and could scarcely walk or talk.

It is reported among the great crowd which gathered about the mine as soon as news of another rescue spread that nine other men have been rescued. So far Berthou is the only living man to be sent to the surface, and it is believed the reports of additional rescues arise from the fact that he was probably found near the group of bodies of men who had only recently died or were dying when reached by the rescuers. This finding of Berthou has caused additional rescuing parties to be sent into the mine in the hope that other men may still be found, especially as it is reported that knockings have been heard in the mine. From the little Berthou has been able to say it is gathered that his sufferings exceeded even those of the thirteen rescued last Friday. Several men were cut off with him, by the explosion, and they wandered about the black galleries for days seeking some opening through which they might escape. Death came to relieve some of the members of the little party. To his rescuers Berthou made the confession that when their food became exhausted the miners turned cannibals and devoured the corpses of two boy apprentices found in the mine. The miners encountered awful dangers and faced the greatest privations before rescue came today to the surviving member of the little party. Berthou was taken from pit No. 4.

Today's rescue is almost directly attributed to the demonstration made yesterday by the women and miners who insisted that some search be made. Women forced the barriers calling the guards murderers of their husbands and sons. The rescuers report they can hear knockings in some of the workings. It is believed that others are alive in the mine.

Many of the men who escaped death took refuge in a mule stable and subsisted on the lunches of their comrades who had been killed and when their food was exhausted they reverted to wheat and oats in the stable.

In reporting on the disaster last Saturday the mining commission blamed the engineers whose duty it was to oversee the work of rescue and clear the mine. They declared that even then it was not too late to save others and the discovery of one more living man in the mine today confirms their finding.

GIRL MEETS DEATH IN UNUSUAL WAY

FORT WORTH, Tex., April 4.—While engaged in sweeping a room today, Miss Mattie Phillips, a prominent young lady of Erath county, lost her life in an unusual manner. The broom caught in the trigger of a gun, which was standing in a corner, causing the weapon to be discharged. Calmly looking at her mother, who rushed into the room, the girl exclaimed, "I am shot," and fell dead.

NEWS BOILED DOWN

"Old Sport" Campana, 75, died at Chicago yesterday.

Iowa will have a state tuberculosis hospital.

Not a pick is being swung in the Wellsville district.

Mrs. Roosevelt entertained President Palma's family at tea on board the government yacht at Havana.

Ruth Anderson, a child and heiress of Cleveland is missing. She is the daughter of C. D. Lockhart. Kidnaping is feared.

One thousand men quit work at Altis Chalmers' new shops at West Altis, Wis., because they say one of their men was assaulted by guards.

Dr. G. W. Whitney of Mohican, O., pleaded guilty to arson; one year sentence.

LOST FINE JEWELS

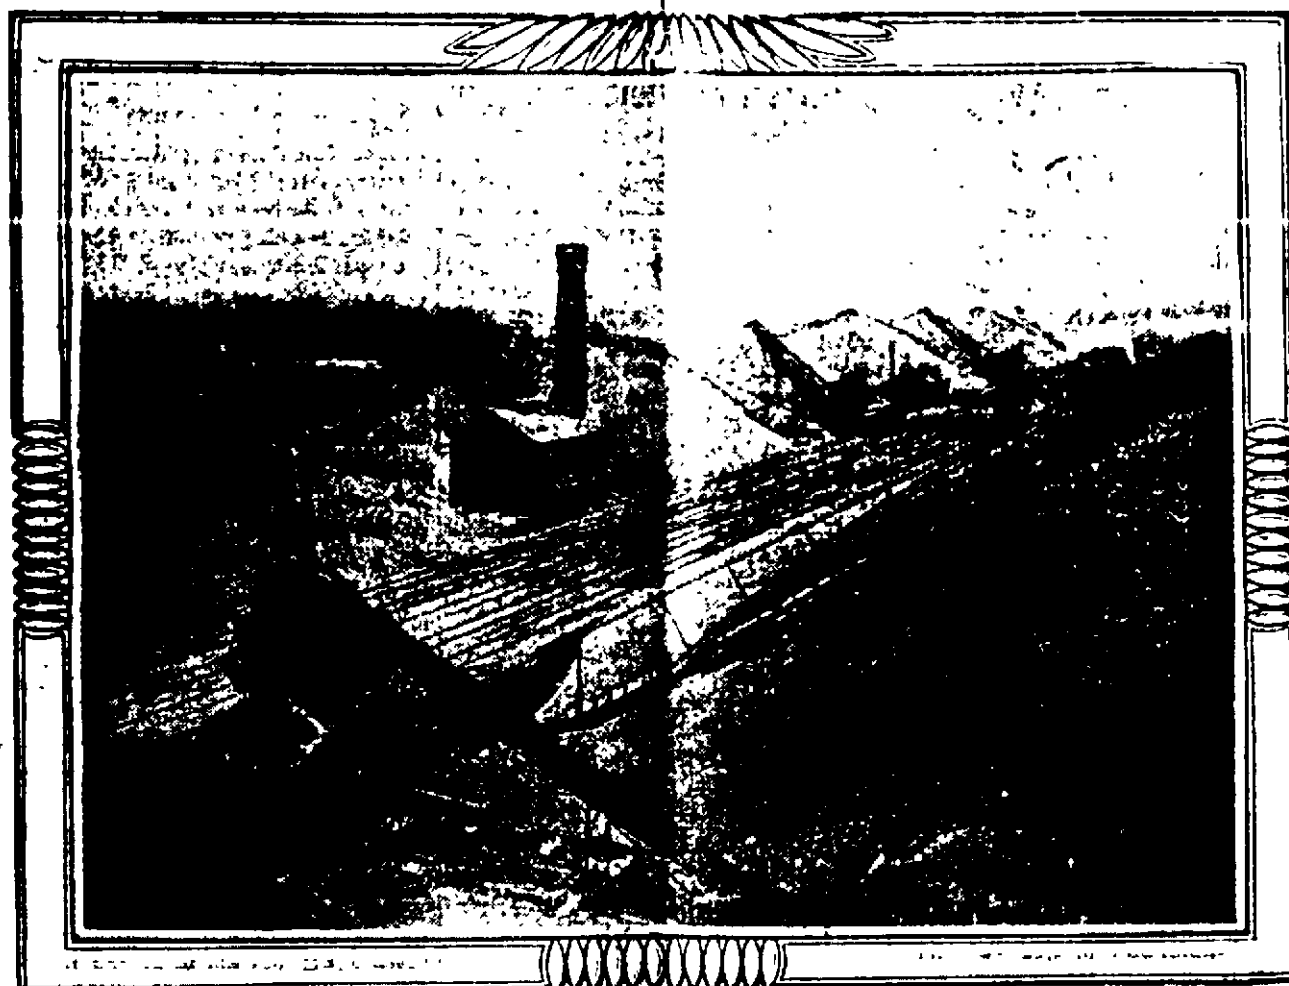

New York, April 4.—Wilson Mizner who married Mrs. Charles T. Yorker, has notified the police that he was robbed of \$7,500 in diamonds and other jewels yesterday afternoon at the Hotel Seymour. He was out walking at the time.

Detectives Summers and Conroy, shown the trunk which had been rifled, after an examination said the trunk had been hastily "jimmied" open by an expert who appeared to have entered the room with a skeleton key.

Vast quantities of fuel are being held for market, because of the great coal strike inaugurated last Monday. The yard at Plainfield, N. J., is one of several selected by mine owners, where enough coal for several months' use is held.

IS WILLING TO HANG MURDERERS

PREACHER CANDIDATE THINKS
THAT PUNISHMENT SHOULD
FIT THE CRIME.

Rev. Jos. P. McKee Has Pronounced
Views on the Subject of Capital Punishment.

Pittsburg, April 4.—"As long as this present infernal wickedness continues I believe that the only way that murderers should be dealt with is to execute them. We don't want to have our penitentiaries crowded with them and have the people under the expense of feeding and keeping them for years, and then maybe they will get out and commit more murders. I have stronger views on capital punishment, perhaps, than most people."

Thus spoke Rev. Joseph P. McKee a Methodist Episcopal preacher and evangelist, of No. 5428 Ellsworth avenue, who announced himself as a candidate for sheriff, when asked what opinion he held in regard to the execution of murderers.

"When I went to war I went to shoot," he continued, "but I didn't take a shot at anybody when I came home. Law is law, and the sheriff is the sheriff."

The unique spectacle of a minister of the gospel officiating at the hanging of murderers would be witnessed in Allegheny county should the candidacy of Rev. Mr. McKee prove successful.

HURT IN WRECK

Richmond, Ind., April 4.—By a cave-in on the C. & E. L. railway track here a special train bearing 115 Red Men from the district meeting at Rushville was precipitated down an embankment this morning. The accident was most unusual. The engine was on an overhead bridge across Main street, when the accident occurred. The guard rail kept it on the bridge, although it left the track. The coal tender and the first coach left the tracks, the tender turning over and the coach falling on its side. There were over thirty in the coach when it left the track. The injured are: Wm. B. Ringling, Richmond, foot broken; Edward Allabarger, Richmond, head cut, back injured; Wm. Bennett, side injured; Elmer Wolf, Richmond, rib broken; John Mattox, Westville, O., hurt on head; S. W. Cook, Richmond, leg and back hurt.

Wheeling, W. Va., April 4.—The U. S. Steel corporation, through its subsidiary organizations, has demonstrated its willingness to sign the local miners' scale.

STRIKE IS AVERTED

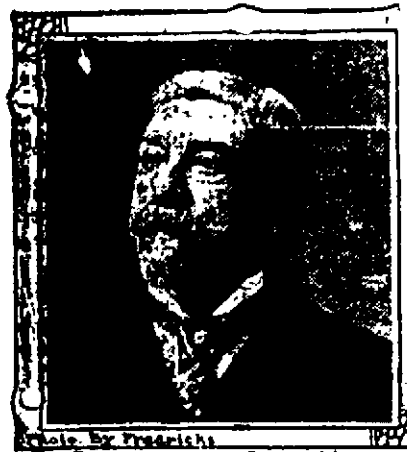

Oakland, Cal., April 4.—This morning the carmen's union adopted the agreement reached yesterday between the leaders and the representatives of the street car company, restoring complete peace and averting a threatened strike. The company recognizes the union and grants improved conditions of labor. The present wage scale is continued.

JAMES H. BRESLIN LAST OF HIS KIND

Death of Noted Boniface Ends the
School of Those Who Knows
All of Their Patrons.

New York, April 4.—James H. Breslin, one of the best known hotel men in the United States and the last of that coterie of bonifaces of the old school, is dead.

Mr. Breslin was born in Lausburg, N. Y., and as a youth went to Saratoga, where he was first a bell boy. Mr. Breslin came to this city

In 1869 and was a clerk at the Fifth Avenue Hotel, where he drew a salary of \$5,000 a year. When the Gay House was erected in 1871, he became its lessee. His experience in all parts of the country added to his popularity. He had been at the old St. Nicholas and the St. James, of this city, and also at the Willard in Washington, the Southern of St. Louis, and the Grand Union of Saratoga. He was the first lessee of the Auditorium in Chicago. Flags are at half mast over every hotel in New York, because of his death.

GOV. PATTISON STILL IMPROVES

Columbus, April 4.—Favorable progress is still the message from Governor Pattison's bedside. Pulse 96, respiration 20, temperature normal. Says this morning's bulletin of Dr. E. J. Wilson and Dr. P. Holt.

LABORER LOST \$710 SAVED FROM WAGES

East Liverpool, O., April 4.—George Pickers, a laborer employed here, had accumulated \$710 from his hard earned wages, and instead of banking the amount, hid it under a bed room carpet. During house cleaning his boss took up the carpet, and not offering the bills, burned the papers underneath, together with the costly bills, which were seen a thing of the past.

MAJ. D. D. PRICE FOUND GUILTY

SENTENCED TO REPRIMAND AND
TO BE REDUCED FIVE
FIGURES.

The Major Found Guilty on Some
Charges and on Others He Was
Acquitted.

A special telegram to the Advocate from New York Wednesday afternoon says that Major D. D. Price who was tried by court martial, has been found guilty. The telegram follows:

New York, April 4.—The findings of the court martial which tried Major David D. Price of the artillery corps, charged with conduct unbecoming an officer, by violation of a pledge of total abstinence and failure to make certain inspections, were approved today by Major General Grant commanding the Department of the East. Major Price was found guilty on some charges and on others he was acquitted. He was sentenced to be reduced five figures. In standing, and to be reprimanded by the commanding general.

TOOK HER OWN LIFE AT
BALTIMORE.

Husband Says Wife's Statement is
Absurd—He Says Act Due to
His Health.

Baltimore, Md., April 4.—With a bullet wound in her right temple and an ill-fated French pistol by her side, Mrs. Blanche Pugner, aged 50, was found dead in the kitchen of her home, 817 Woodley street, by her husband, Alfred Pugner.

Beside the body was a letter, written in French, in which Mrs. Pugner referred to the fact that her husband loved their child Elsa, 11 years old, better than herself.

Pugner charged that the statement of his wife was absurd, and attributed her tragic act to ill health.

CHICAGO'S SALOON LICENSE.

Chicago, April 4.—The \$1,000 saloon license proposition is a safe one. In Tuesday's election enough aldermen were elected to present the repeal of the new ordinance. Thirty-seven of the new ordinance are for high license, 10 for low and three are doubtful.

BREEN'S BODY FOUND

Dayton, O., April 4.—C. W. Pace this morning found the body of Manager Breen of the Peoples Railway company, about two miles below the Washington street bridge, from which Mr. Breen was knocked into the river. The body had been in the river seven days.

Conference

ALL OHIO MINES ARE IDLE

ANTHRACITE SCALE COMMITTEE MEETS
IN NEW YORK

Joint Conventions to Held Soon in
Several Districts—First Friday
at Athens, Ohio.

Columbus, April 4.—Both sides in the great struggle involving the mining industry of the state are waiting for developments. The operators will meet at Cleveland Friday and the miners will hold a joint conference for the Hocking Valley district will be held at Athens, J. H. Winder, chairman of the Ohio operators, is still in West Virginia attending a meeting of the operators. All mines throughout the state are idle and will be until the district conference with the operators for signing the scale are held.

New York, April 4.—The anthracite miners scale committee met today to prepare plans for bringing about a settlement of the existing differences in the coal fields. While none will none will discuss how the adjustment is to be effected, it is learned today that certain demands which the operators already refused, will either be eliminated or so modified that the operators will accept them without feeling they have sacrificed their present position of conceding anything. Behind the surface indications of war there is a current making for peace which appears to be growing stronger. Among the operators as well as the miners this occurs. The operators indicating they will concede nothing, will not place themselves in position of bringing on a slight demand might avert it. Each side is anxious to keep the good will of the public.

It was said the scale committee is strongly opposed to a continuance of operations under the award of the anthracite strike commission and in the event all demands are refused will advocate that the men return to work without an agreement so that each colliery, if necessary, to settle its own difficulties may go on a strike.

Pittsburg, April 4.—At the district miners convention this morning Frank Fochan, officially elected president, said the officials of the Pittsburg Coal company, complained that 21 mines were unable to resume operations because the miners refused to work.

AMENDMENT TO PLAY HAVOC

With the Steam Roads Should
They Want to Cut
Down Rates

TO FIGHT THE INTERURBANS

DISCOVERY JUST MADE IN NEW RAIL-
ROAD COMMISSION BILL

If Big Roads Reduce Rates to Certain
Points Some Must Preval Over
The Entire Line.

Columbus, O., April 4.—The discovery was made today that one of last amendments voted into the railroad commission bill before its enactment, contains a meaning that will play havoc with the steam roads in competing with the interurbans where they touch common points such as Newark. The amendment provides that it shall be unlawful for steam roads to discriminate either in case of persons or localities. The word localities is what threatens to hurt. This will prevent the steam roads from making a cut in either passenger or freight rates to certain favored points to meet interurban competition. If they cut the rate to local points where the interurban competition, the state commission can compel the road to make the same low rate all over the entire length of the line within the state.

DOZEN PROMINENT MEN INDICTED IN STATE OF OREGON

Portland, Ore., April 4.—Indictments naming between 12 and 16 persons of prominence and wealth have been returned by the Federal grand jury, in connection with the land frauds in Southern Oregon which the jury had under investigation for several days. The authorities decline to give the names of the persons or the number indicted, although it is asserted that several of the indicted persons live outside of Oregon.

MUNICIPAL ELECTIONS

Close Contests at Milwaukee, Kansas City and Elsewhere.

MAYOR ROSE MEETS DEFEAT

Social Democrats Cast a Heavy Vote in the Cream City—Party Lines Obliterated at Many Points—Brief Review of the Issues before the Voters and the Results.

Milwaukee, Wis., April 4.—David S. Rose (Dem.), for eight years the city's executive head, was defeated Tuesday for mayor of Milwaukee by Sherburn H. Becker, the young Republican candidate.

Returns gave Becker 1,700 plurality. Becker ran on a platform calling for a greater and better Milwaukee, a municipal electric light plant and more railroads. Becker made the most vigorous campaign of any candidate who ever before sought election. He advertised extensively in the daily papers and made noonday and night speeches every day excepting Sunday since the primaries. The complete unofficial vote is: Becker (Rep.), 22,265; Rose (Dem.), 21,010; Arnold (Socialist Democratic), 16,750. Becker's plurality, 1,555. The common council will have 19 Republicans, a gain of 5; 16 Democrats, a loss of 7, and 11 Socialists, a gain of 2.

William M. Graebner (Dem.) pulled through safely for city treasurer, having a plurality of 3,046 over Alex E. Martin (Rep.). Graebner was the only Democrat to be elected on this city ticket.

Gorman, the Democratic mayor of Kenosha, was re-elected by a big majority, though the Republicans gained in all wards. At Madison the Independent Democrat, Joseph C. Schuber, defeated the anti-saloon candidate of the Republicans, Leslie R. Rowley, by 1,050. Republicans carried Waukegan, Stoughton, Whitewater, Waukesha, Tomah, Ripon, Portage, Marinette, Menominee and Baraboo. Democrats were victorious in Kenosha, Elroy, Columbus, Madison, Dodgeville, Fond Du Lac, Beaver Dam and Neenah.

Republicans Carry Kansas City. Kansas City, Mo., April 4.—The Republican city ticket, headed by H. M. Beardsley for mayor, was elected, his majority over R. L. Gregory (Dem.) being estimated at 1,200. The issue of the campaign was restriction of public service franchises, both platforms endorsing the principle of municipal ownership. The gas company and the street railway company are both seeking extensions of franchise, and the incoming administration is pledged to insist upon adequate return for extension and to establish a municipal gas plant unless a reduction of the price of gas is made. The new administration has a large majority in each house of the city council.

Mayor Resigns. Kansas City, Kan., April 4.—Four of the six wards in Kansas City having declared in Tuesday's election against Mayor W. W. Rose's policy of licensing liquor joints, the mayor sent his resignation to the council. The resignation was unanimously accepted.

Mayor of Hartford. Hartford, Conn., April 4.—William F. Henney (Rep.) was re-elected mayor by a majority of more than 2,000.

RUSSIA'S STEP Toward the Reopening of The Hague Conference.

NEWARK CLUB WILL HAVE TROUBLE OVER FIRST BASEMAN ED KONETCHEY

Serious Charges May be Preferred Against LaCrosse Club for Negotiating With Player Under Contract With Newark Club—Secy. Farrell Notified.

There is trouble in the air over the Big Pole, Ed Konetchey, whom Manager Bates had signed for the initial sack. Bates received a letter Wednesday morning from President Elliott of the LaCrosse baseball club in which the Newark manager was informed that the LaCrosse club had the big first sacker reserved from last season. Manager Bates stated that in his opinion there is some sort of a collusion between the LaCrosse management and Konetchey in which they plan to hold the man. The letter stated that Konetchey had a LaCrosse contract in his possession prior to March 1 in accordance to the national agreement.

This could easily have been accomplished as both Konetchey and the president are in the same town. After Konetchey had signed the Newark contract it would have been an easy matter to date the LaCrosse contract ahead of the Newark contract.

Bates has taken the matter up with President Morton of the O. & P. league and Secretary Farrell of the National organization, and the matter will be investigated at once. All the correspondence relating to the signing of the big man has been forwarded to Farrell, and if it can be proven that he rightfully belongs to Newark, charges will be preferred against the LaCrosse club of tampering with players already under contract with another club. This offense is punishable by a fine of not less than \$200.

The LaCrosse management had the nerve to state that they would be willing to sell the player if Newark would make an offer. "I am not buying players," said Manager Bates. "There are too many good players loose. I already have a first baseman on the string who is ready to sign, who is really a stronger hitter than Konetchey. I may sign him and let Konetchey go."

Working on Ball Ground. The work on the baseball park is on in earnest and it will not be long before the big roller will be on the ground doing a compressing stunt. A surveyor was on the ground Wednesday morning laying out the diamond and a team with a harrow leveled the corn stalks to the ground preparatory to the plowing and scraping which the ground will be given this week. The lumber is being hauled and the actual work on the grandstand will soon commence. The building committee is on the ground a good share of the time superintending the work.

The Knockers at Work. A New Castle paper remarks as follows:

"Some person of a mean disposition might wonder how Newark is going to support two baseball teams when there were evident difficulties in keeping one going last year."

Then a Zanesville writer used his scissors. We finished the season even if we did come out the little end of the horn as to games won and lost. Still we don't mind even if New Castle and Zanesville see fit to ply the hammer. We will finish this season, and not in last place either.

PITCHER O'NEIL IS THE GOODS

Says Youngstown Sport Writer—He Worked With Youngstown Last Season.

The Youngstown Vindicator in speaking of one of Newark's new men, says:

Jack O'Neil, the clever amateur pitcher of this city, will be given a chance to make good in the O. & P. league this year. He has signed with Manager Cotton Bates of the Newark team and will report to him the middle of this month.

Last year O'Neil worked for the Belmont Athletic club and Hamilton and he was regarded as the premier amateur pitcher in the city. Manager Hoken gave him a chance to work in the last double header at Sharon last year, and only a trick of Manager Killen of Sharon prevented him from winning the game. With the score standing 6 to 0 in his favor and 4-1-2 innings played, Manager Killen had his hiring, Empire Wilson call the game and avert a defeat. O'Neil pitched a fine game and had Killen's kids at his mercy.

The youngster was recommended so strongly to Cotton Bates and he decided to give him a chance. The fact that O'Neil will start with some team other than his own town will greatly help him to success in the baseball world. His many friends in this city feel confident that he will make good.

Phyle Will Make Good. Manager Billy Burke of the Kansas City team, is pleased with the

VICTORY IS INCOMPLETE

Chicago May Own but Not Operate Street Railway Lines.

RESULT OF THE ELECTION

Proposition Providing For Issuance of Certificates For the Purchase of Street Railways Carries, but the Operation Suggestion is Lost—Vote on Saloon Question.

Chicago, April 4.—The city of Chicago can proceed to acquire and control street railways but cannot operate them. This is the result of the city election held Tuesday, in which the question of the municipal ownership of the street railways was the vital issue. At the same time the voters, while declaring that the city shall not proceed to operate the railroads, declared that as a question of public policy it would be desirable for the city to do so.

Three propositions were submitted to the voters, the first of which was: "Shall the city of Chicago proceed to operate street railways?" This proposition required 60 per cent of the total vote cast in order to become effective. The second proposal involved the approval of an ordinance previously passed by the city council providing for issuance of street railway certificates in amount not to exceed \$75,000,000 for the purchase, ownership and maintenance of the street railways. This was carried by about 3,800 votes. The third question, which was simply on the question of public policy and has no legal effect whatever, is, "Shall the city council proceed without delay to secure the municipal ownership and operation of the street railways under the Mueller law instead of granting franchises to private companies?" This proposition was carried by about 3,600 votes.

Following are the correct figures on the election: The total vote cast on the question of municipal ownership was 231,171. Of this number 120,911 were cast in favor of municipal operation of the street railways and 110,260 against it. In order to become binding the proposition to operate the railways should have received 135,703 votes. It therefore fell short of the required number by 17,792 votes. The proposition to issue \$75,000,000 in street railway certificates was carried by a vote of 110,008 against 106,669. The declaration of public policy was carried by 111,862 to 103,025.

Of the 35 aldermen who were elected Mayor Dunne claims that 19 are avowed champions of municipal ownership, and that he will have much less difficulty in passing measures relating to that doctrine through the city council than has been his fortune heretofore. The faction opposed to municipal ownership declares that they still hold the control of the council and that Mayor Dunne will have no greater success in the future than he has had in the past.

Mayor Dunne's Views.

Mayor Dunne construed the passage of the \$75,000,000 certificates and public policy propositions as a victory for municipal ownership, but he expressed his disappointment over the defeat of the proposition for municipal ownership. He said: "I am disappointed because the victory is not complete. The important proposition, however, at the present time, is for the issuance of the certificates, and this has been carried. I regret, however, very much that we did not get the necessary majority to enable us to legally operate the street railway lines. But this will not prevent us from again getting before the people after we have the street railway lines and asking for the necessary power to operate. The people will vote for the operation with a big majority at the proper time."

Besides the question of municipal ownership the issue was made in many of the aldermanic contests of whether the saloon licenses of the city shall be \$500 or \$1,000. The low figure was in existence up to March 5, when the city council by a close vote, and after a hard fight, passed an ordinance raising the amount to \$1,000. The liquor interests made a strong fight against every alderman who was up for re-election who had voted for the license of \$1,000. Of the 15 men against whom they put their influence 12 were elected and three defeated. Of the nine aldermen up for re-election who voted for the continuance of the \$500 license all were returned to their seats in the council. There is little danger, however, that the high license will be repealed.

On Friday night a double performance will be given, starting at 8:15. The play "At Pike's Peak," and at 10:30 a complete vaudeville show, consisting of six big acts. On this occasion the drawing will also take place for the dress pattern now on exhibition at Meyer & Lindorf's dry goods store.

Spring Troubles

If you live a confined life, get no outdoor work or exercise, experience symptoms of general weakness, forgetfulness, lassitude, irritability, loss of appetite, pain in the small of the back, there is no question about it you are suffering from spring fever and inflammation of the mucous membrane.

Alderman Peter A. Wendling, of the Chicago City Council, has written this letter on the subject:

"Last spring, after I had completed my canvass for election to the City Council I felt worn out and out of sorts. I could not determine any particular seat of my ailment. I was able to attend to my duties, but any great effort distressed me, and I lost considerable in weight. As I had enjoyed uniformly good health I was not greatly alarmed, and felt that my trouble would soon wear itself out."

"Finally I consulted a physician, and his diagnosis was that I was suffering from incipient intestinal catarrh. He advised me to take a course of treatment at one of the celebrated medicinal springs. I was inclined to take his advice, but found it difficult to get away from my public and private business. While I was hesitating what to do, one of my political friends advised me to try Mucun-Tone. He told me that it had cured his wife, and he said, 'Alderman, it will cure you.' Well, he was right. I think I took four or five bottles during the course of a month, with the result that I was entirely free from pain and had recovered my normal energy and buoyancy. I got back my old weight, and when any of my friends commented on my improved appearance I told them it was all due to Mucun-Tone."

His experience is no different from that of many others. Rexall Mucun-Tone cures "Spring Fever" by working through the blood, thus reaching the affected membranes wherever they are located; drives out the poison and allays the inflammation, for as it is a powerful nutritive tonic, it revitalizes the blood, soothes the strained nerves, builds up the body, and relieves you entirely of that tired, worn-out feeling which comes with the change of seasons.

Any customer of ours who purchases a fifty-cent bottle of Mucun-Tone gives it a fair trial, and doesn't find that it will do all we claim for it, can have his money back by returning to us the empty bottle.

DEFENDANT AT MURDER TRIAL IN COSHOCTON MAKES POOR IMPRESSION.

Climax to Numerous Sensations Came When the Defendant Took the Witness Chair.

Coshocton, O., April 4.—The final climax in the numerous sensations that have developed during the big murder trial came here yesterday when the defense announced Benjamin Dickerson, the accused man, as their next witness. It was under the withering fire of a deadly cross-examination, pushed with great vigor that the actual character of this man was revealed, whether he be guilty of the crime charged or not. On the afternoon the dead woman was found the accused and his two sons, though living within a stone's throw and seeing many people gather and hasten to and fro, kept on about their work of hauling in hay as though nothing unusual had occurred. Nor did they show any neighborly interest in the matter when Mr. McCluggage went to the accused and told him Mrs. Hughes had been found dead in the woods. He kept right on with his work until evening.

Mr. Wheeler had been boring into this show of heartless indifference by saying "The fact a woman should be found dead in the woods with her head between two saplings excited no curiosity in you, despite the fact, as you say, that you were on friendly terms with Mrs. Hughes; is that so?" At that Dickerson declared he did not know until after he was arrested and in jail that she was found with her head between the trees.

"Why," said the attorney, "you went out into the road in the evening and mingled with the people, did you not ask how she came to her death?"

"To this Dickerson replied: 'It is something I hardly ever do, to ask about such things.' He declared that after staying out in the road about 30 minutes, 'I went home and went to bed and slept well and late.'

"You did not go to that house of your neighbor to inquire and tender your aid and sympathy, did you?" now inquired the attorney; and Dickerson, again, replied: "I never ask about such matters."

"Don't care, do you," said the inquisitor. "Well, no I don't know that I do," was the reply.

Again, the attorney inquired "If a person in your neighborhood were to be lost, and come to a violent

death, and you got the rumor, would you not inquire about it?"

"Oh, no," again came the laconic reply.

Trying to get home at the man the attorney now put this question: Even if you heard the terrible thing had happened to your own wife, you would not be concerned or hasten to inquire?"

Dickerson replied: "Well, I might or I might not inquire about it."

"You have no interest in the life of humanity at all, have you," was now asked, and to this Dickerson made the cold blooded reply, "Oh, I have a little interest, but not so very much."

These replies were not made in banter, but the impression was made on all in hearing that the man's answers were true to his nature. The question came just before adjournment and afterwards the comment was freely made that the man might as well have pleaded guilty at once, for his demeanor and answers made such an unfavorable impression on the jury that they could not entirely conceal their feelings of revulsion.

BOTH SIDES

(Continued from Page 1.)

The coal company asked the convention to appoint a committee to visit the mines and induce the miners to return. Ousted President Dolan was absent.

Columbus, O., April 4.—At a meeting of the executive body of district No. 6, Ohio United Mine Workers, a resolution was adopted instructing the miners of the various districts to draw up local wage scales, which will later be adopted or rejected by the operators in joint session with the miners. The first of these joint meetings will be held Friday and Saturday at Athens, when the miners of the Hocking district, comprising Athens and Hocking counties and a portion of Perry county, will adopt a scale for the next two years, which will be presented to the operators Monday. There are about 18 districts in the state.

No prediction can be given of the scale which the miners will adopt at Athens, but the scale of 1903 will be followed out in general, with few variations to make it uniform throughout the district. No attempt will be made, it is announced, to construct an exactly uniform scale throughout the state, but it will be made as nearly so as is possible. This decision on the part of the conference here means that it will be some time before all the operators willing to pay the 1903 scale will have a chance to work their mines. Those operators in the Hocking district willing to pay this scale will probably be able to open their mines early next week, and with other meetings closely following it is expected that there will be other mines ready for work the latter part of next week or the first of the week following.

ANTHRACITE

Operators and Miners Hold Joint Meeting at New York.

New York, April 4.—The subcommittee representing the anthracite operators and the mine workers of eastern Pennsylvania held their first joint meeting here, and after nearly a three-hours session adjourned until 1 p. m. Thursday without coming to an agreement. Each side to the controversy has refused to make the slightest concession, and the whole question apparently is as far from solution as it was before the conference began. In the meantime the tleup of the anthracite industry remains complete, without indication that a resumption of mining will occur very soon. Notwithstanding the fruitless session and the apparently hopeless deadlock between the workmen and their employers, rumors are still current that a way will be found that will enable the operators and miners to stand on common ground and settle their differences.

Mr. Mitchell, in discussing the situation in the bituminous fields, said he had received a large number of telegrams from the soft coal fields which satisfied him that affairs in those regions are working themselves out just as he had anticipated. Thousands of men, he said, returned to work under the scale of 1903, which gives them an increase of 5.55 per cent over the wages received during the last two years.

In West Virginia. Charleston, W. Va., April 4.—The conference of operators and miners of the Seventeenth district, in session here, has so far been without result. The miners presented their demands after the organization of the convention. President John Nugent of the district demanded on behalf of the miners the restoration of the scale of 1903, and in addition a reduction of the working time of day men from nine to eight hours; also a differential in the scale of pick and machine miners. J. H. Winder of Columbus, O., general manager of the Sunday Creek company, the largest operator in the Kanawha field, was the chief spokesman for the operators. He declared that the operators could not and would not consent to the demands.

NAVIGATOR MISSING.

New York, April 4.—At 2 o'clock this afternoon no word had been received from Paul Noque, whose balloon was found on Jones' beach this morning. The impression is that the daring air navigator well into the sea and was drowned. He made an ascension yesterday.

WASHINGTON NEWS

Washington, April 4.—By a vote of 202 to 26 the house passed the national quarantine bill. The bill places the control of all quarantine stations, grounds and anchorages under the secretary of the treasury and directs that as soon as practicable after the approval of the act he shall select and designate such suitable places for them and establish the same at such points on or near the seacoast of the United States and on the Mexican border as in his judgment are best suited for the same in order to prevent the introduction of yellow fever into the United States. The bill further gives the secretary of the treasury the right to establish a quarantine station at the Dry Tortugas islands and at such other points at or near seacoasts (not to exceed four in the aggregate), as he deems necessary.

Long on Rate Bill. Washington, April 4.—Mr. Long of Kansas spoke at length in the senate in support of the house railroad rate bill, and his speech was taken advantage of by a number of senators to make inquiry concerning the recent conference at the White House in which the Long amendment was considered, if not originated. The controversy was participated in by Foraker, Allison, Aldrich, Bailey and Bacon. Mr. Long assumed complete responsibility for the amendment, but both he and Mr. Aldrich declined to divulge the proceedings of the conference.

No Power to Reinstatement. Washington, April 4.—Secretary Bonaparte was advised by the attorney general that the authority of the secretary of the navy to appoint and dismiss midshipmen does not embrace the power to reinstate. Inquiry was made by Mr. Bonaparte in connection with the effort of Senator Bailey and Representative Burton of Texas to have Midshipman John Paul Bean of Texas reinstated.

FEES WITHHELD

By Chief of Police Contrary to Code Says Examiner Huntsman in Report Submitted.

In the report of the state examiner which has been submitted to the auditor of state, Examiner Huntsman states that he finds that Chief Sheridan has withheld \$901, contrary to Section 136 of the municipal code. He stated, however, that this was being done in many of the cities, and that the officers felt that they were entitled to these fees, under the statutes.

There has been some considerable controversy over this matter and a case is now pending in the Supreme court for decision. Chief Sheridan has merely been following a precedent established before he took the office, and is in no way guilty of any wrong doing.

Spring Medicine

The best is Hood's Sarsaparilla. It is the best because it does the most good.

While it makes the blood pure, fresh and lively, it tones the stomach to better digestion, creates an appetite, stimulates the kidneys and liver, gives new brain, nerve and digestive strength.

An unlimited list of cures—40,366 testimonials in 2 years—proves its merit.

Special.—To meet the wishes of those who prefer medicine in tablet form, we are now putting out Hood's Sarsaparilla in chocolate-coated tablets as well as in the usual liquid form. By reducing Hood's Sarsaparilla to a solid extract, we have retained in the tablets its active principle of every medicinal ingredient except the alcohol. Sold by druggists or sent by mail, 100 cents per bottle. Get Hood's Sarsaparilla, the great blood purifier, at once.

Mrs. W. A. Snowden, 103 Milton St., Dedham, Mass., says: "I want every sick woman to know the curing power of Hood's Sarsaparilla. After a long illness, I had milk in my breasts, and I had a very bad case of indigestion. This medicine purified my blood and gave me a new system."

SALARIES PAID TO TEACHERS

SCHEDULE SHOWING PREMIUM ON ATTENDANCE AT COLLEGE OR NORMALS.

How Increase in Salary is Arranged and What It Amounts to in Twelve Years.

Suppose that seven graduates of the Newark High school are named A, B, C, D, E, F and G, and that they will hereafter be employed at teachers. The increase in salary is \$20 a year up to and including the eighth year of experience, and then, if a teacher hold a five year certificate, \$10 a year for the next four years, making the limit \$510; but attendance at college and normal schools counts as experience as shown below:

A serves as contingent and visits one year without regular pay.

B serves as contingent a year and attends two summer normal schools.

C serves as contingent a year and attends three summer normals.

D takes a one-year normal course.

E takes a two years' normal course (but is a graduate of a three year high school).

F takes a two years' normal course.

G takes a four years' college course.

B is entitled to 1 year salary credit; C 2; D 3; E 4; F 5; G 6. One salary credit is \$20 a year; that is, these teachers begin with these credits added to their salaries. See which of them pursues the wisest course.

Salary A B C D E F G

1st yr. 370 390 390 390 390 390 390

Gain over A 140 240 280 300 300 300

By the end of the 12th year of experience it will be observed that B will have received \$140 more than A; C \$240 more than A; D \$480 more than A; E \$600 more than A; F & G \$700 more than A. It will be observed that this increase will largely pay the necessary expenses incurred by attending college or normals. F, for instance, receives \$700 for attending a normal school two years, and escapes serving as contingent one year—that is, he begins teaching only one year later than does A. Notice D, \$480 for attending a normal one year and does not serve as contingent. Other comparisons: For those who will not teach for 12 years: At the end of the 7th year, B will have received \$100 more than A; and \$150 more than A at the end of the 11th year. At the close of the 6th year, C will have received a total of \$140 more than A; and at the end of the 10th year \$220 more than A. At the close of the 5th year, D will have received a total of \$210 more than A; and at the end of the 9th \$450 more than A. At the close of the 4th year, E will have received a total of \$320 more than A; and at the close of the 8th \$510 more than A. At the close of the 3d year, F will have received a total of \$390 more than A; and at the close of the 7th year a total of \$600 more than A. At the close of the 3d year G will have received a total of \$390 more than A; and at the close of the 7th year a total of \$600 more than A.

HUNTED

A Squirrel to Appease the Appetite of a Stricken Brother and a Boy Was Killed.

Wheeling, W. Va., April 1.—While out hunting a squirrel for his dying brother, Harry Hendon, aged 15, was killed by the accidental discharge of his gun, in the woods in Belmont county, O., across the river from Wheeling. The boy's head was almost blown off.

The lad's younger brother had been critically ill for days, hope for

his recovery being abandoned. Last night he expressed a desire for stewed squirrel and this morning his brother shouldered his gun and started out to secure the nourishment.

The young hunter's death must have been instantaneous. His body was found by searchers several hours later.

Postal Inspector at Coshocton.

Coshocton, April 1.—George Pate, a rural free delivery inspector, arrived in Coshocton with instructions from the postoffice department to investigate and report on the feasibility of establishing here a county service of rural free delivery. Mr. Pate will first go all over every route now existing in the county, 24 in number, after which he will devise a plan for rearranging old routes and adding new ones to cover the unserved territory lying between the now existing routes. This work will consume the time of Inspector Pate for probably two or three months. He will establish headquarters in Coshocton, where he will see patrons over plans and suggestions for the new arrangement of routes.

LITTLE MISS,

Daughter of a Missionary in China, Completes Trip of 14,000 Miles Without a Chaparrone.

Worster, O., April 4.—A trip of 14,000 miles by land and sea, unaccompanied by either friend or acquaintance, has just been concluded by Grace Fulton, a ten-year-old miss who arrived here from Canton, China.

Grace has come to Ohio to be educated. She will be an inmate of the Westminster Missionary Home while here and will attend the Wooster public schools. Later she will take a 4-year course at Wooster university, after which she will return to China as a missionary.

The little girl left China January 27. Agents of the steamship company and the railroad companies were her sole guardians during the trip. She is a daughter of Dr. Albert Fulton, a prominent missionary of Canton.

Was Found by the Sick Southerner in the Ohio Girl Who Nursed Him Three Weeks.

Syracuse, N. Y., April 1.—George Knox of Knoxville, Ala., and Miss Ida M. Keeler of New Matamoras, O., have just been married at Minnetto, N. Y. Back of the union lies an interesting romance.

Mr. Knox was discharged from the hospital of the Good Shepherd Saturday morning. He had been there three weeks suffering from rheumatism. His nurse was Miss Keeler. Knox found that he had met his affinity.

Heart Like a Clock

The pulsation of the heart marks the passage of the blood through the veins, just as the ticking of a clock indicates the flight of moments of time.

Palpitation, fluttering or irregular action reveals the fact that the heart is running down—and unless strengthened, is liable to stop at any time under some weakening influence, such as excitement, overwork, or intense mental or physical strain. To regulate the heart action, you should take Dr. Miles' Heart Cure when any symptoms of a weak heart is apparent. It has no equal.

"Sometime ago I had a very severe pain around my heart, and most of the time I had a heavy beating or throbbing of the heart. It would beat so that when I lay down at night it would sound like a small clock in bed with me. I could count the ticking. With every little exercise, or walking I felt like my heart would fly out, and I would be so tired I

DOWIE ON WAY TO ZION CITY

WILL MAKE DESPERATE EFFORT
TO REGAIN CONTROL OF
PROPERTY.

Barnes Will Pay No Attention to
Dowie's Order to Cancel Power
of Attorney.

(Bulletin)
Chicago, April 1.—Zion is today
trembling with fear and worry. The
dispatch has been received from Dowie
canceling the previous power of attorney
granted Overseer Voliva and
transferring it to personal friends.
Overseer Vinito has aroused a sentiment
of resistance. Threats are today
made that upon arrival of the
former "First Apostle" in Zion, he
will be dealt with in extra legal manner.
It is conceded, however, by legal
authority that Dowie has the better
of the situation. While he grants
the power of attorney to Voliva, it
is argued he has the same right to
revoke it. A receiver is likely to be
asked for, for the benefit of the creditors
and residents, and Deacon
Gauger may be the man named.

Chicago, April 1.—John Alexander
Dowie, with every fighting instinct
aroused to the highest degree, is on
his way to Zion City. He will make a
desperate effort to regain the control
of his church.

Dowie sent a telegram from his
mountain retreat at Ocotlan, Mexico,
directing Deacon V. V. Barnes, his
general counsel, to cancel Deputy
Overseer Wilbur Glenn Voliva's power

of attorney and appointing Fielding
H. Wilhite in his stead. Wilhite is
Dowie's only friend in Zion City.

Both messages were taken a few
minutes later to Voliva. There was
an immediate conference called. At
its conclusion Voliva made a lengthy
official statement in which he severely
arraigned Dowie for his extravagance
and tyranny and reiterated that it was
the firm determination of the church
authorities and people never again to
permit him to have a voice in the
government of Zion City.

Voliva and his advisers do not believe
that Dowie will be willing to go
into court and suffer an exposure of
details of his private life.

At a conference that continued late
into the night Dr. Voliva and his
advisers made plans to contest Dowie's
effort to regain control.
V. V. Barnes would not divulge these
plans. It is known, however, that
he will pay no attention to Dowie's
order to cancel Voliva's power of
attorney appointment but will stand
by Voliva at every stage of the
litigation that must ensue unless
the threats of exposing the skeleton
in Dowie's family closet have
their effect. The legal situation will
be unprecedented. On purely legal
grounds Dowie would seem to have
a good footing.

COUNCILMAN GIVES SALARY TO CHARITY

Mr. Vernon Man Establishes Precedent
in Disposing of Salary as
Member of City Council.

Mr. Vernon, O., April 1.—Councilman
Herbert E. Sanderson of this
city, has established a precedent for
disposing of his salary as councilman.
After receiving his check for
\$9 Monday night, Mr. Sanderson
studied over the manner in which he
would spend the amount he had received.
A dozen or more ways of getting
rid of the sum popped into his
mind, but they all popped out again
until he happened to think of the
home for the aged fund. That idea
struck him and on Tuesday, he endorsed
the order and mailed it to the

More Trouble May Occur If President
Smith Tries to Remove the
Professor.

Ada, O., April 1.—The trial of Professor
Handley Hixon vs. President
Smith, of the university here, at Kenton,
has resulted in the dissolution
of the junction served on President
Smith by Hixon. The judge ruled
that President Smith had no power to
remove the professor without the consent
of the trustees. On returning
from Kenton Smith denounced the
keys of the room from Hixon, which
were refused him, and this may mean
further trouble if Smith tries to

be in favor of Hixon's return. Hixon

The room will be entirely remodeled, and will be known under the name of the Star Theater. It will probably open Saturday noon.

Frightened by a Dog. Quite an amount of excitement was raised in North Newark Wednesday morning over the appearance of what was supposed to be a mad dog. The animal was seen running about wildly on North street, snapping at trees and different objects. Those who were on the street lost no time in getting away. Shooting the animal was suggested, but evidently every one was afraid of it, until a passerby noticed that the dog was not frothing at the mouth, called to it and began petting it, when with wagging tail it ran to his side.

Tonsiline Cures Sore Throat

The throat is one of the most delicate parts of the body. It is also one of the most important, and should be given the best possible care. The throat is the gateway to the body. The air we breathe, the food we eat, the liquids we drink, all pass through it. It is very easily affected by cold, strain, exposure, etc., and Sore Throat is therefore one of our most common ailments. Strangely enough, it is also one of the most neglected.

Sore Throat is a very serious matter, for the whole system is in danger in consequence of it. Every Sore Throat patient is a candidate for Tonsiline, Quinine, Diphtheria and other serious or fatal diseases, all of which can positively be prevented by the timely cure of the Sore Throat by the use of TONSILINE.

If taken in time a dose or two will do it. TONSILINE is made to cure throat diseases and nothing else. It is the one remedy for this purpose sold largely in the United States. Every user endorses it; every physician, knowing its virtues, commends it.

The one most important thing to remember about TONSILINE is the fact that it really does cure Sore Throat.

Jones Option Bill a Law.

Columbus, O., April 4.—The Jones residence local option bill, which became a law at midnight, will have little effect throughout the state for the next two months at least, as most of the saloons to which the law would apply were either voted in or out by the Brannock law. Voters reached by vote under this law are effective for two years. The Jones law is even more far-reaching in its provisions than the Brannock law, in that an election is not necessary, but a petition signed by a majority of the electors of a certain district is sufficient to abolish the saloons. By the end of May the two years will have expired in many of the districts in which elections were held under the Brannock law, and then the fight will be waged once more. The anti-saloon people will seek to reclaim all "wet" territory, and vice versa.

Wagoner Jury Disagrees.

Akron, O., April 4.—After a trial lasting several days the jury in the case of Captain Aaron Wagoner, former cashier of the Akron Savings bank, the accounts of which he is charged with falsifying in his reports, failed to agree and was discharged by the court. The jury was evenly divided on every ballot, six voting for conviction and six for acquittal. Captain Wagoner was chairman of the state board of penitentiary commissioners under former Governor Herrick.

Woman Sues Millionaire.

Xenia, O., April 4.—John Bryan, the millionaire, author-farmer of Yellow Springs, is the defendant in a damage suit for \$25,000 filed in the common pleas court by Mary G. Miss Stueler alleges that Bryan, on Aug. 5, struck her repeatedly with a riding whip and so lacerated her arm that she was compelled to go to a sanitarium.

Extracts Pin From Foot.

Delaware, O., April 4.—Charles F. Grojane, a barber, extracted from his right foot a pin which he swallowed 18 years ago, while attending a birthday party, and which from time to time he has felt in various parts of his body. A supposed corn had been giving him considerable trouble lately, and when he cut it the pin was discovered and extracted.

Fear Foul Play.

Cleveland, O., April 4.—It is believed that thugs were responsible for the death of Justice Woolley, a well-to-do farmer of Falls Junction, this county. Evidence that he was followed from Cleveland, assaulted and robbed, and that his assailants left his body on the railroad tracks to hide their crime, was brought to light in the coroner's investigation.

Chairman Drake's Announcement.

Columbus, O., April 4.—Before leaving for home Senator John C. Drake, chairman of the Cincinnati investigating committee, announced that the hearings before his committee will be resumed in Cincinnati April 17. As no Republican was added to the committee before the adjournment of the legislature, Senators Sites and Meek, in accordance with their previous declarations, will not take part in the investigations, basing their refusal upon the ground that the committee is not a bi-partisan organization.

OHIO FARMERS GROW ALFALFA

EXPERIENCES RELATED BY MEN WHO HAVE OBTAINED GOOD RESULTS.

Valuable and Interesting Pointers are Given in Accounts Written for Ohio Farmer.

A valuable collection of articles upon the subject of alfalfa in Ohio appears in the Ohio Farmer of April 7. The articles are written by Ohio men who have had experience with this remarkable crop and many valuable pointers are presented. The substance of the articles is presented here.

None of the writers attempt to discuss the merits of alfalfa from a scientific standpoint, but give actual results as they have found them in feeding and growing the crop. Mr. John P. Brown of Champaign county, in feeding a bunch of 20 steers, secured a gain of 5 pounds per head per day for a period of 30 days, on a ration consisting of shock corn, alfalfa and oat straw. A test was later made with the same ration except that clover was substituted for alfalfa and he gained very much smaller. For ewes with lamb, alfalfa was found to be an ideal feed and greatly increased the milk flow. Lambs at 30 days of age were made to weigh as high as 35 pounds. In growing the crop Mr. Brown found it very profitable even for the first year. He always seeds with spring barley and from a field of 15 acres made a profit above the cost of seed, of \$112.70.

Mr. A. M. Cheney, a retail milk dealer of Champaign county, last year grew 60 tons of alfalfa from 15 acres and found that the alfalfa hay in his feeding ration enabled him to do without bran almost entirely. He considered alfalfa worth as much as bran, pound for pound for a dairy feed. In a comparative test with clover he found that his herd of 19 cows shrunk 7 gallons in milk-flow when clover was substituted for the alfalfa. With the latter feed they gave about 40 gallons of milk per day and when changed to clover they dropped to 33 gallons.

H. C. Rogers of Champaign county grazed 31 head of two-year-old cattle 32 winter months and 12 brood sows with their pigs on 22 acres of alfalfa and estimates that the crop yielded him a profit of \$25 per acre. C. W. Gray of the same county, has fed alfalfa extensively to horses of all classes—farm horses, roadsters, brood mares, colts and stallions, and has found it an excellent feed. There is some prejudice against the use of alfalfa as feed for farm horses, but Mr. Gray finds that his farm teams do better and stand up under their work better when fed on this hay than when given any other kind of hay and a liberal allowance of concentrates.

J. C. Sidle of Wayne county, falls to secure a crop of alfalfa on his farm. A two-acre plot was given the best of cultural treatment and sown to alfalfa and clover. The alfalfa made a very promising start, but in the latter part of September began to fall and before winter set in had disappeared entirely. The next spring the clover came on and gave an excellent yield of first class hay. R. W. Dunlap of Pickaway county, has a small field of alfalfa which has been yielding him good crops of hay for eight years. As the field became weedy and he tried the experiment of burning the weeds and alfalfa together. The plants show no signs of injury and are now starting to grow again and appear as thrifty and hardy as ever. Mr. Geo. E. Scott of Jefferson county, is skeptical and does not believe that alfalfa will ever take the place of clover in Ohio. He has tried

to grow it with indifferent success and thinks clover too valuable to be displaced by an uncertainty. He does not attempt to create a sentiment against the seedling and growing of alfalfa, but cautions farmers to go slow and experiment in a small way before attempting its growth on a large scale.

A. J. Legg of Nicholas county, W. Va., has had good success in growing alfalfa and finds late sowing (June and July) favorable in his locality. When sown at this time, it should have no nurse crop. A field sown with buckwheat, was injured by the dense growth of the nurse crop and went into the winter in poor condition. The plants are starting nicely this spring, but still show the effect of their crowding. Mr. W. H. Brevoort of Knox county, Ind., would always time soil that was inclined towards acidity. He always rolls his field after sowing and finds that better results are obtained. He thinks storing freshly cut alfalfa on dry hay is apt to cause spontaneous combustion.

TUXEDO CLUB CIGAR

S.S.S. GREATEST OF ALL TONICS

Everyone should take a tonic in the Spring; their systems require it. The blood has become thick and sluggish with the accumulations left in the system from breathing the impure air of closed rooms and overheated buildings; the heavy, rich foods of the Winter season, etc., and when this vital fluid is aroused and stirred to quicker action by the return of warmer weather, these waste matters and poisons are distributed through the circulation, to act depressingly and injuriously on the system. The blood being in this unnatural and impure condition is unable to furnish the body with the proper amount of nourishment and strength, and the system suffers from debility, weakness, nervousness, indigestion, loss of appetite, and many other unpleasant symptoms of a disordered blood circulation.

The depleted system must have assistance; it needs a tonic and it is important that the proper one be selected. When the health is in this disordered condition it is not safe to

take unknown concoctions, sarsaparillas, etc., because they usually contain potash or other strong mineral ingredients which act unfavorably and often dangerously on the run-down, weakened system, at a time when it needs gentle and natural stimulation to throw off the impurities and recuperate its lost energy. A great deal is being said these days about living close to nature, and it is more applicable to medicines, perhaps, than anything else. Nature has provided a remedy for all the ills of mankind, and medicines made from nature's vegetation act better in every way than do the strong mineral mixtures which are the products of the chemist's or apothecary's shop.

The greatest of all tonics is S. S. S. It is made entirely of the roots, herbs and barks of the forests and fields, selected for their purifying and health restoring qualities; and as it does not contain the slightest trace of mineral in any form it is especially adapted for a systemic remedy, one that is absolutely safe for young or old. S. S. S. acts directly on the blood, ridding it of any and all impurities and poisons, and restoring the lost properties of rich, nutritive strength so that it is enabled to supply to the system the healthful, invigorating energy needed to pass this trying season of the year. Its action is the most prompt,

pleasant and satisfactory of all tonics and blood purifiers, and those who are beginning to feel the need of a medicine to fortify the system against the unpleasant conditions that come with Spring, will do well to commence its use at once. It will not only tone up the system, but will remove any taint or

humor that may be in the blood and thus prevent an outbreak of Eczema, Tetter, Salt Rheum or other rash or eruption of the skin. S. S. S. restores lost energy, relieves that all worn out, tired feeling, quiets the nerves, helps the appetite and imparts a relish for food, and in every way adds tone and vigor to the entire system, and prepares it for the depressing Summer months that are to follow.

In selecting your tonic for this year do not be led into believing that others are "just as good," but get **S. S. S., THE GREATEST OF ALL TONICS**, and one that for more than forty years has been recognized as such. It is Nature's tonic, absolutely pure and safe, and reliable in every way. S. S. S. is for sale at all first-class drug stores.

Dentistry Robbed of Its Sting

Some people dread the dentist's chair. To hear them talk it possesses horrors unheard of. We learned this from persons who had been elsewhere. From others who had talked to persons whose teeth had been treated elsewhere.

Those who come to us frequently express the greatest surprise at the ease with which we perform our work and the degree to which we have succeeded in reducing the pain and inconvenience to those whose teeth we are treating.

No need for the most nervous person to dread coming here, either for extracting or filling. All our work is guaranteed.

GRAND JURORS REPORT TODAY

ASSIGNMENT OF APPEAL CASES
TO BE MADE TOMORROW IN
CIRCUIT COURT.

Burt-Owens Case Argued Today—
Realty Transfer—Day's Budget
of Court News.

The grand jury after having been in session for three days, made its report to Judge C. W. Seward at 1:40 o'clock Wednesday afternoon. During the session 75 witnesses were examined, covering thirteen cases, and eight indictments were returned, of which the following have been made public:

W. A. Trace, abandonment of minor children.

John W. Redman, abandonment of minor children.

Benjamin F. Barnhart, abandonment of minor children.

Walter Wood, petit larceny.

Walter Wood, malicious injury to property.

Wm. Sparks, disarranging switch.

Perry Davis, criminal assault, two counts.

The jury made the usual report concerning the county jail.

In Circuit Court.

The Circuit court heard arguments Wednesday in the case of Edwin M. Burt et al vs. C. S. Owens. The action was brought in the Common Pleas court for damages arising from the sale of certain improvements to a patent fence post. A verdict was secured in the Common Pleas court in favor of Owens for \$1286. This, with interest, amounts to about \$1800. It is to reverse this judgment that the plaintiff in error, Burt, prosecutes error. Smythe & Smythe; Swartz, Kibler & Montgomery.

Katherine Criticos vs. Andrew Grevels, on trial to the court; an action to determine priorities of liens growing out of the execution of certain chattel mortgages on the stock of candy, etc., in the Greek candy store on the South Side, issued some time ago. Kibler & Montgomery, Black; Stasel, Fulton, Rector.

An assignment of appeal cases will be made in the Circuit court tomorrow morning.

Wright Pleaded Guilty.

On affidavit of John Pickering, made before Justice Atcherley, Edward Wright was arrested on the charge of obtaining board and lodging from him to the amount of \$10.75. He entered a plea of guilty and was bound over to the Probate court in the sum of \$50. In default of bail he was remanded to the county jail.

Charges Drunkenness and Cruelty.

The divorce case of Myrtle Kochendorfer against Frank Kochendorfer, came on for hearing before the Probate court on Tuesday afternoon. The testimony showed that the defendant got drunk and refused to support her and that he was guilty of extreme cruelty and gross neglect of duty. In view of these facts a decree was given the plaintiff.

Court Notes.

George B. Upham, administrator of the estate of Margaret Upham, deceased, has filed his first and final account.

A fine looking and well dressed young man called at the Probate court and made application for a marriage license. When questioned it developed that the young lady lived in New Philadelphia and the court was unable to grant the request of the young man.

The finding of Probate Judge Bristle in the matter of the exceptions to the twelfth account of Amanda M. Bline, administratrix of the estate of James T. Maholin, deceased, has been appealed to the Common Pleas court.

ENGLAND ALIVE

To the Necessity of Improving Administration of Macedonia.

London, April 4.—Replying to a memorial signed by 64 members of parliament, Sir Edward Grey, foreign secretary, said in the house of commons that the government was alive to the necessity of improving the administration of Macedonia and would do all in its power to ameliorate the conditions of the inhabitants of Macedonia. Progress in the direction desired, he said, depended on the view taken by the other powers, but the governments concerned were aware that in every effort to promote reforms they can rely on the co-operation of Great Britain.
